

## Senior Hedge Fund Developers

For 45 years, Focus Capital has been the leader in Wall St. Technology. Our hedge fund division is seeing unprecedented growth this year and our 4th quarter returns have been setting records. Most of our funds are upgrading all of their technology for 2021 and we are adding **65 new developers** for assorted new roles including, Java, Big Data, React, Angular, C#, Python, and the Cloud.

We are hiring:

- **Java developers** with front or back office expertise.
- **Data Engineers, with Big Data**, Data Warehousing and/or Java SQL development
- **C#/Angular developers**
- **Java Fixed Income** Risk Mgmt. developers
- **Junior Java developers** for Systematic trading

We are hiring both full/time or consultants and are open to either.

We expect our requirements to grow well into the second quarter, so reach out even if you can't start immediately, we'll wait.

Focus Capital Markets, for 45 years "*Where Wall St. and Technology Meet.*"

We are a proponent of diversity and encourage diversity hiring.
